

Academic Partnerships Committee – Terms of Reference

2023-24

Parent body

Academic Board

Purpose

The Academic Partnerships Committee considers, monitors and reviews all formal academic partnership arrangements including (a) those which underpin or relate to the collaborative provision of educational programmes in the forms of progression (with recognition of credit), articulation, joint awards, validation, study abroad and off campus delivery; and (b) those which relate to other forms of activity or alliance, and involve contractual or signed agreements (including Memoranda of Understanding and Memoranda of Agreement).

These include partnerships established in the context of the Turing scheme and with the University of London, and other partnerships that are approved for the provision of distance and flexible learning.

It advises and makes recommendations on such partnerships to Academic Board and the Senior Management Team (SMT), and liaises with Learning, Teaching and Student Experience Committee (LTSEC), Quality and Standards Committee (QSC) and any other committees/sub-committees as appropriate.

Terms of reference

1. To consider and monitor Goldsmiths' strategic approach to the development of institutional academic partnerships both domestically and internationally.
2. To oversee and monitor the database of partnership contracts and agreements, including the Academic Partnerships Register, and to keep under review the format and content of contract templates.
3. To oversee and monitor the health and viability of Goldsmiths' partnership portfolio, considering key aspects of the management of these relationships and the quality of the student experience.
